

Society of St. Andrew
GLEANING AMERICA'S FIELDS
FEEDING AMERICA'S HUNGRY

Tennessee Gleaning Network **2025 Impact Report**

The Society of St. Andrew's mission is to bring people together to harvest and share healthy food, reduce food waste, and build caring communities by offering nourishment to hungry neighbors.

2025 Impact

**3,813,920
Servings**

Individuals, farmers, agencies, and organizations donated their time, energy, food, and financial resources to SoSA's Tennessee Gleaning Network in 2025.

SoSA's produce rescue and distribution program puts fresh fruits and vegetables on the tables of our hungry neighbors.

This food would have gone to waste in landfills or rotted in fields without the farmers who donated crops, the volunteers who gave time, and the donors who made financial contributions.

Because of you, the food was gleaned, packed, and transported to local feeding agencies.

Seed Program

100 packets of cucumber seed for distribution to community gardens.

SoSA's Seed Project focuses specifically on community gardens, inner city gardens, small family farms, church gardens, and high-need school gardens. The recipients prepare the fields, plant the seeds, cultivate the crop, and harvest the produce.

Meeting Farmers

We love a farm expo!

SoSA Staff usually attend three or four farmer-focused events per year to make relationships with farmers who might invite us out to glean their fields. Hosted by universities, the state, or community groups, we enjoy the chance to tell our story about rescuing food waste and feeding our neighbors.

Partners

The Tennessee Gleaning Network would like to thank the following foundations, businesses, and congregations. Your continued support has a tremendous impact, leaving a broad and meaningful footprint across every part of Tennessee, engaging people of all ages in service to others, reducing food waste, and addressing critical human needs. We thank you and look forward to continuing our partnership in the fight to end hunger across Tennessee.
